F Curved Brackets	-	-	-	-	-	-	x 3
G Middle Legs	-	-	-	-	-	-	x 3

WARNING The glass used is low iron toughened (tempered) glass - which means it is stronger than normal glass. Importantly, even though it is stronger, toughened (tempered) glass still has weaknesses. The corners and sides are specific pressure points where it is more fragile and can break if care is not taken. Extreme temperature variations could cause the glass to shatter.

CAUTION Glass will get HOT when fire is in operation. Keep children away. Never leave children unsupervised around a fire.

Assembly Instructions

Align all components as shown in the images below and assemble together using the supplied Allen Key. Repeat the process until all the glass pieces are connected.

Refer to the Clearances and Installation manual provided with your appliance for instructions on installing the assembled glass fire screens onto your appliance.

Square Screens S18, S22

Linear Screens L50, L65, L90, L130

Corner Bracket Assembly

Linear Screens L90, L130

Bridge Bracket Assembly

Round Screen R20

Curved Bracket Assembly
